Areas of rain or sleet falling on frozen surfaces may lead to icy conditions

What to expect

- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Rain or sleet is expected to spread from west to east across the area overnight, falling on to frozen surfaces leading to some icy patches, perhaps even where treatment has been applied.

What should I do?

Keep yourself and your family safe when it is icy. Plan to leave the house at least five minutes earlier than normal. Not needing to rush, reduces your risk of accidents, slips, and falls.
